

# WIND4BIO

## INCREASING THE SOCIAL ACCEPTANCE OF WIND ENERGY

PROJECT DURATION  
12.2022 – 03.2025

PROJECT NUMBER  
22\_044\_WIND4BIO

### ABOUT THE PROJECT

Wind4Bio addresses a key inhibitor pertaining to the proliferation of wind energy in the territories of Western Greece, Latvia and Poland, namely the concerns expressed by local communities over the impact of wind power installations on biodiversity. Wind4Bio will work for the convergence of wind energy and biodiversity policies and practices.

### RESULTS

**R1:** Enable local, regional and national public administrations and agencies to better understand and address civil society's biodiversity concerns regarding wind energy installations.

**R2 :** Increased social acceptance of wind energy.

**R3 :** Increased capacities on the part of the wind energy sector to integrate biodiversity preservation measures.
